

Tossed's Signature Salad

"We really looked to do contrasting flavors with this salad. We wanted flavor, textures, and great colors. People really eat with their eyes, so you need to have that color with the fresh fruit and dried cranberries. All that gets balanced out with the jicama.

"A lot of people don't even really know what jicama is. It's a root vegetable, but it has a bright white flavor with a crisp, fresh taste and texture. It's a burst of flavor when you eat it. We use them when they're still very small and they still have a nice sweet flavor to them. And the dressing adds a great balance to the whole thing for really strong contrasting flavors and textures."
